

SceniQ 2x2

1024-Channel DMX/1024-Channel Art-Net Interface for SceniQ Software

Control the show directly from your MAC, PC or Linux machine, integrate control with external DMX or MIDI equipment already in your rig, or even take control wirelessly with your Android or IOS devices.

- Choose from more than 7,000 existing fixture profiles or create the profile of your new light in a few easy steps
- Get started faster by using preset movements and effects automatically loaded after adding your fixtures
- Use your preferred triggers and controls by mapping to keyboard keys, MIDI or DMX
- Control up to 4 universes (2 DMX and 2 Art-Net)
